

Alumil

WOODEE

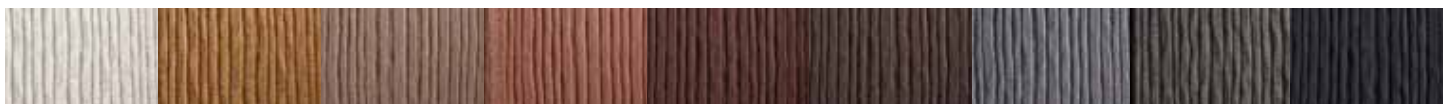

WOOD COMPOSITE PANELS

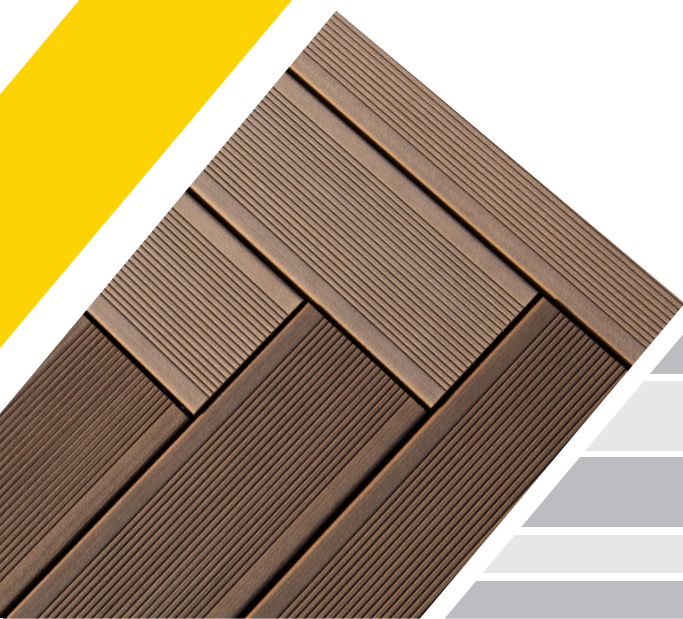

WOODEE is Alumil's proposal for top quality wood-composite decking, which offers a wide and qualitative variety of solutions.

Its specific recipe maintains the scent and the advantages of natural wood and at the same time provides various top attributes, such as extreme resistance, low moisture absorption, high mechanical strength and low thermal distortion, almost no maintenance and easy installation.

The bars may also overlap one with each other so as to cover the joints and offer solutions for wall cladding and fencing, all with the same materials.

- High durability with 25-year warranty
- Absolute scent of wood
- Extreme resistance against the weathering effects, wood parasites, chlorine and salty water
- Solid and extremely robust profiles
- Top anti-distortion attributes and less than 1% water absorption
- Walk barefoot without any burning, slipping or splinters issues
- Almost no maintenance
- Friendly to environment

TECHNICAL CHARACTERISTICS

Available in 5 surfaces
(Linear, Vintage, Amazon, Amazon Plus, Flat Plus)

Available in 9 colors
(White, Cedar, Teak, Merbau, Palisander, Grey, Inox, Eben, Wenge)

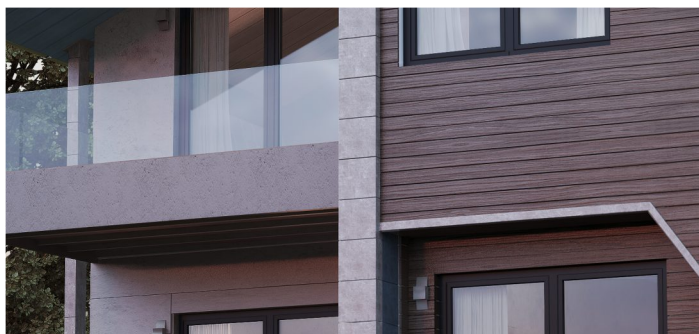

60% pure wood 40% HDPE
(polyethylene) without impurities

Subframe with parts of same material and inox connectors

Outdoor use

TYOLOGIES

- Outdoor decking with simple profile 137mm
- Outdoor decking with overlapping profile
- Outdoor decking with wide profile 195mm

- Wall cladding

- Fencing louvers

CERTIFICATES

Product failure (wood parasites)

25 year warranty

Flexural and impact strength, water absorption, slipperiness, thermal distortion, etc

P CEN/TS 15534-1
